Homura Heavy Industries Corporation

## Exhibited our USVs at Japan Drone 2024

Thank you very much for visiting us!

Homura Heavy Industries Corporation (located at 57-9 Anaguchi, Takizawa City, Iwate, Japan; CEO : Yosuke Furusawa) exhibited our product line-up in our booth at Japan Drone 2024 from June 5<sup>th</sup> (Wednesday) to June 7<sup>th</sup> (Friday), 2024.

Thank you very much for visiting our booth. Our new product including the ones already in our product line-up, received a lot of attention and interest from many customers.

Our new products, Smallest USV "Model H-SC"

Our standard model for inspection.

Our standard model for rescue.

Our members introduced "Model H-SC" to the visitors.

## Our prospect:

To move forward with our stakeholders, we will diligently deliver water surface drones that can be of use in water areas. Simultaneously, we will continue to brush up our products as well as developing the market with our technology and faith.. We sincerely appreciate your sincere support.

## About us:

Homura Heavy Industries is actively developing various solutions and water surface drones for challenging fields such as coast guard operations, water rescue, water quality and marine surveys, bathymetry, seabed topography, seaweed bed surveys, water infrastructure inspections, box culvert inspections, water surface cleaning (garbage and oil collection), waterborne logistics, tourism, leisure, and more. Our focus is on product development and sales of water surface drones that contribute to resolving labor shortages, saving labor, and improving safety across different industries and water environments. We are also engaged in research and development related to Bio Group Control® and contract development of outdoor systems for various companies.

## About Japan Drone 2024:

Japan Drone is the largest drone-specific business-to-business exhibition in Japan and the 9th of its kind since 2016. It provides a venue for specific business matching, addressing various issues, promoting social infrastructure development, and actively working towards realizing affluent lifestyles.

Dates: June 5 (Wednesday) - 7 (Friday), 2024, from 10:00 to 17:00 \*Ended

Venue: Hall 5&6 at Makuhari Messe

**Our booth: BH-7**
